## Course Description

The course is designed to review the principal features of international security as it is currently practiced. It does so by tracing the evolution of contemporary policy and other determining circumstances through the sequence of formative experience whereby current international security conditions developed. The underlying contention is that understanding the consequence of formative experience is indispensable for adequate comprehension of the prevailing concepts, organizing principles, military deployment patterns, legal regulations, and political relationships that determine the state of international security at the moment.

The period of time reviewed begins with the circumstances and choices that shaped security policy after World War II. Contemporary security policy has deeper historical roots, but current conditions were heavily determined by the developments that occurred during the Cold War. Although it is common to assert that we are now in a new era, anyone who does not understand the formative events and enduring legacy of that period will certainly not understand the contemporary problems that are covered in the second half of the semester. The course reviews this history from contemporary perspective for the purpose of understanding the current implications. That is, of course, a revisionist perspective from the point of view of those who lived through the events in question, but it is legitimate and important to use the advantage of retrospect to understand current circumstances.

The course is intended to be useful and appropriate for all people of whatever national affiliation. There is heavy emphasis on the experience of the United States and of Russia as principal successor to the Soviet Union because the historical interaction between these two countries has disproportionately affected the international security conditions that all other countries now experience. Understanding this experience is a necessary foundation for any more focused national security perspective a student might wish to develop.

## Requirements

This course is designed to help students develop the broad knowledge and analytical capabilities needed to understand complex policy issues, as well as the oral, written, and interpersonal skills needed to participate effectively in policy debates. Students will maintain the highest standards of professional behavior and will adhere to the University of Maryland's Code of Academic Integrity ([www.shc.umd.edu](http://www.shc.umd.edu)) at all times.

To prepare students to be effective participants in security policy debates, class participation counts for 20% of the grade and will be evaluated in several different ways. Students are expected to

prepare thoroughly, attend consistently, and engage actively in class discussions. Please e-mail me in advance if you must miss class for any reason.

Students should attend at least three special events related to international security policy (e.g., CISSM forums, other such events on campus or downtown, Congressional hearings, movies, webinars, etc.). For each event, they should post a reaction paragraph or two on the class discussion board connecting it to what we are reading and discussing in class. Please also e-mail me your reaction paragraphs I can track them. They will be graded as a check or a plus for participation.

Students are also encouraged to use the on-line forum to continue discussions begun in class; to share relevant news, articles, and event announcements; and to pose questions about readings that they want to discuss during the next class. Use of this forum will also factor into participation grade.

Students will sign up to write several short (1500 words) analytical memos in response to questions posed and readings assigned in the syllabus. (Arguments and evidence from outside readings can be incorporated but are not required). At least one memo should be submitted before spring break and one after it. Memos should be e-mailed to me by 11 am on the day of the session to which they pertain.

Each memo will be graded on five main criteria.

- 1) Does it have a clear, coherent, compelling, and creative central argument?
- 2) Is that central argument well supported?
- 3) Are counter-arguments and/or alternative points of view weighed?
- 4) Are important and interesting policy implications drawn from the analysis?
- 5) Is the memo professionally written — grammatically correct, appropriate tone, fact checked, numbered pages, etc.?

For guidance on writing clear, effective policy memos, see the sample 720 memo and George Orwell's essay on "Politics and the English Language," both of which are in the class resource folder. Students may rewrite one analytical memo and have the average score recorded. The rewrite must be submitted NLT two weeks after the initial grade and comments were received. No rewrites will be accepted after the last class session.

We will be doing a joint policy exercise and other activities with a group of students from the Moscow-based Institute for U.S.A. and Canada Studies (ISKRAN) the week of March 27-April 1. This year's topic will be options to improve U.S.-Russian security relations under the Trump administration.

Active participation is essential to the success of the exercise, so students who want to be full participants should make arrangements to be available for all of the joint sessions and to devote time to the drafting of the initial memo and the post-exercise memo. 720 students unable to do that will write a third individual memo in lieu of the joint policy exercise group memo, and are still encouraged to attend the social events we arrange for the ISKRAN group, including the movie night and the CISSM-ISKRAN dinner.

Before spring break, 720 students will write a team "food for thought" memos laying out what the main issues in the US-Russian security relationship that they want to address and

some cooperative options they would like to explore with their Russian counterparts. The “food for thought” memo should be exchanged with ISKRAN counterparts by March 16th.

The ISKRAN group will attend class on March 28th. We will start with an informal lunch and conversation from 12:30-1:30 pm, all-class discussion of the policy issues from 1:30-3:00 pm and initial team meetings from 3:00-4 pm. The most important interactions of the joint policy exercise will occur on Thursday, March 30 from 1:30 pm through 5:45 pm, so if you have a class that Thursday afternoon, please make sure that your professor will excuse you before committing to do the joint policy exercise rather than the third short memo. All 720 students are invited to dinner with the ISKRAN group at my house on March 30th, and are also encouraged to socialize and sightsee with the Russian group outside of the scheduled activities.

After the visit, the MSPP teams will write a memo for me summarizing the policy objectives they had for the ISKRAN meetings, the points of agreement and disagreement that emerged from those meetings, and the recommendations that they would give U.S. policymakers for how to move forward with Russia on the topic. I will give each memo a base grade, and then award individual students bonus points based on their own evaluation of the exercise and their team-mates’ evaluations of their contributions. This memo is due two weeks after the joint policy exercise, on April 11<sup>th</sup>.

The final synthetic policy memo (2500 words) will integrate concepts and evidence from multiple class sessions (assigned readings and discussions) and additional research if desired. It can build on ideas developed through one of the short analytical memos or the joint policy exercise. If students focus on a security policy problem that has not been a featured topic for this course, they need to show how what they have read, heard, and learned in this class helps them think through that policy problem. The memo should explain to a national leader (US president or other country) or to the UN Secretary General why the issue you have chosen should be a top priority for international security, what the key elements of an effective response would be, and how the world could move from where we are toward the desired outcome. It should assess the strengths and weaknesses of current policy, and recommend the five most important things that should be done to better address that problem. It will be due one week after the last class session.

Grading breakdown:

Participation	(in-class, on-line forum, special events)	20%
Analytical Memos	1 <sup>st</sup> memo	15%
	2 <sup>nd</sup> memo	20%
	3 <sup>rd</sup> memo or joint policy exercise memo	15%
Final memo	due <u>4 pm</u> May 16	30%

## Readings and Resources

The central reading for the historical part of the course is McGeorge Bundy, *Danger and Survival*. Although the book is out of print, Francesca Perry (room 4130, [fperry1@umd.edu](mailto:fperry1@umd.edu)., ext. 57611) has used copies that she will sell for \$5 and repurchase at the end of the semester.

The campus bookstore has copies of two recommended books. Several chapters of John Lewis Gaddis, *The Cold War: a New History* are assigned and the whole book is relevant. Since the course deals extensively with nuclear issues, the bookstore also has Richard Garwin and Georges Charpak, *Megawatts and Megatons*, which is useful for students who have a particular interest in nuclear weapons and energy technologies.

The course also relies heavily on recent articles and reports, many of which are available on the internet, and links have been provided whenever possible. The remainder of the assigned readings will be placed on reserve using the Canvas system. To access these readings, go to <https://elms.umd.edu> and enter your user name and password (the same ones that you use to access your University of Maryland email account), and then click on PUA 720. Depending on class interests and developments in current policy debates, I may supplement or substitute readings as the semester progresses.

## Schedule

### (1) Introduction (January 31)

Reading: McGeorge Bundy, *Danger and Survival*, pp. 3-130, especially pp. 3-11; pp. 45-63; and pp. 98-130

Question for reflection: Was the development of nuclear weapons inevitable once the basic physical principles were understood? What does this imply for current efforts to control the spread of nuclear weapons and other advanced technologies with military applications?

**\*\* No Class on Feb 7<sup>th</sup> \*\***

### (2) Determinants of Post-War Security (February 14)

Readings:

Bundy, pp. 130-196

John Lewis Gaddis, *The Cold War: A New History* (Penguin Press, 2005), pp. 5-47

Vladislav Zubok and Constantine Pleshankov, *Inside the Kremlin's Cold War* (Harvard University Press, 1996), pp. 1-8 and 36-77

United Nations Charter, <http://www2.ohchr.org/english/docs/UNcharter.pdf>

George Kennan, "The Sources of Soviet Conduct" (1947), at:

<http://www.foreignaffairs.com/articles/23331/x/the-sources-of-soviet-conduct>

NSC 68 (United States Objectives and Programs for National Security, April 14, 1950)

<http://www.fas.org/irp/offdocs/nsc-hst/nsc-68.htm> (20 pages)

Memo Question: How did the US and USSR move in five short years from being victorious allies in World War II to heading opposing alliances in the Cold War? What lessons would you draw about ability of major powers with a mix of common and competing interests to cooperate on shared security problems?

(3) **Nuclear Weapons, Coercive Diplomacy, and Deterrence (February 21)**

Readings:

Bundy, pp. 197-462

Carol Cohn, "Sex and Death in the Rational World of Defense Intellectuals," *Signs* 12:4 (Summer 1987), pp. 687-718

Memo question: Were the size and operational configuration of the nuclear forces originally deployed by the United States and the Soviet Union strategically justified?

(4) **Arms Control (February 28)**

**\*\* Class begins at noon, Memorial Service for Tom Schelling at 3 pm \*\***

Readings

Nancy W. Gallagher, "Four Logics for Cold War Nuclear Arms Control," Chapter Two of *Strategic Logics for Arms Control*

Bundy, pp. 463-583

Thomas Schelling, "What Went Wrong with Arms Control?" *Foreign Affairs* 64:2 (Winter, 1985)

Albert Carnesale and Richard Haass, eds., *Superpower Arms Control: Setting the Record Straight* (Cambridge, Mass: Ballinger Publishing Company, 1987), pp. 329-357

Gray, Colin S., "Arms control does not control arms," *Orbis* 37:3 (Summer 1993), 16p

Memo question: Did arms control make a meaningful contribution to security during the Cold War, or was it either a waste of time or a dangerous delusion?

(5) **Limited War vs. Civil Conflict: Vietnam and Afghanistan in the Cold War (March 7)**

Readings:

James Patterson, *Grand Expectations* (Oxford UP, 1996), pp. 593-636 and 743-770

Alex Wallerstein, "Would Nukes have Helped in Vietnam?" Nuclear Secrecy Blog post July 25, 2014, at: <http://blog.nuclearsecrecy.com/2014/07/25/nukes-helped-vietnam/>

Robert McNamara, *In Retrospect: The Tragedy and Lessons of Vietnam* (New York: Vintage Books, Random House, Inc., 1995), pp 319-335

Melvin Laird, "Iraq: Learning the Lessons of Vietnam," *Foreign Affairs* (November/December 2005)

Stephen Biddle, "Seeing Baghdad, Thinking Saigon," *Foreign Affairs* (March/April 2006)

Memo Question: Why weren't the United States and the Soviet Union able to prevail over much weaker adversaries in Vietnam and Afghanistan? What, if any lessons, would you draw about the relative importance of military power and political legitimacy when foreign powers intervene in civil conflicts because they see them as part of a larger security problem?

(6) **Incomplete Ending of the Cold War (Mar 14)**

**\*\* We will do a double session, from noon to 4 pm to prepare for ISKRAN Visit \*\***

Readings:

Bundy, pp. 584-617

John Lewis Gaddis, *The Cold War*, pp. 195-237
